

**Coat Rack is a safe-space label and service where our artists work in a harassment-free zone // [www.coatrackrecords.com](http://www.coatrackrecords.com)**

## PRESS RELEASE

Coat Rack Records is a brand new record label, embracing the ever-changing face of the creative industries. As an independent record label, we strive to support artists with their independent creative vision as well as their impact on the industry. As an artist signed to Coat Rack, you'll be working with fresh-faced industry professionals who hold a unique and new perspective for the creative industries.

We are led by a team of adroit creatives who understand that your artistic vision is the pinnacle of concern when it comes to signing with a label. We can assure you that work produced through us will stay true to you and your individuality as an artist. We aim to facilitate you as a creative and fully support you in whatever way that we can. Coat Rack Records is open to working with artists across a spectrum of different genres to demonstrate our appreciation for music.

We want you to collaborate with us to produce, promote and market your music in a way that is modern to the creative industries and different to what any label has done before.

# Why are we unique?

Coat Rack Records UK is solely run by females who have been in the music industry from 2015 onwards. Both Directors understand what it is like to need a safe space when being creative. Unfortunately, both have also experienced music environments totally unsafe for women. From live events to digital marketing, disrespect follows us in this line of work. Everything seems just that little bit harder for women in music - navigating the industry can be confusing and we understand that more than anyone. Any band that can work ethically in music would be making such a difference. We want to help eliminate the distress that can be caused by a toxic music scene by offering a stepping stone for musicians who just want to make good music. Coat Rack is somewhere that holds the music community's best interests at heart.

## #WOMENINMUSIC

Here you can record, mix and market your work whilst knowing everything each step of the way. Complete transparency means our ethos is inclusive as we strive to tackle misogyny in music.

### How can you help?

We need as much press coverage following our release on Friday 25th of February. Any way of getting our brand out there would be a huge help to us!

**Feel free to contact us:**
